

FLIGHT NIGHT

Tulsa Regional STEM Alliance cultivates impactful partnerships & learning pathways that inspire and prepare all youth for a STEM-enabled future.

Hello and welcome to another amazing year for STEM across our community!

Thank you for supporting Tulsa Regional STEM Alliance through your contribution to the 2024 Flight Night event. On behalf of the planning committee, we are proud to say it was another record-breaking year!

At nearly **\$800,000** in net proceeds, Flight Night serves as the most significant source of revenue for Tulsa Regional STEM Alliance allowing us to have such a powerful impact on our community. Together, we are expanding access to excellent STEM experiences in school, out of school, in competition settings, and with mentors, with **191,659 youth experiences** and **843 educators trained** through Professional Development in 2024 alone!

Your dollars are hard at work! In 2024, the STEM Shoppe – our STEM supplies lending library – has saved schools and educators more than **\$268,948!** Another **\$107,950** in grants was provided to partners for materials, professional learning, and increased access to STEM experiences. That's a total of **\$376,898** in educator and school savings in just one year!

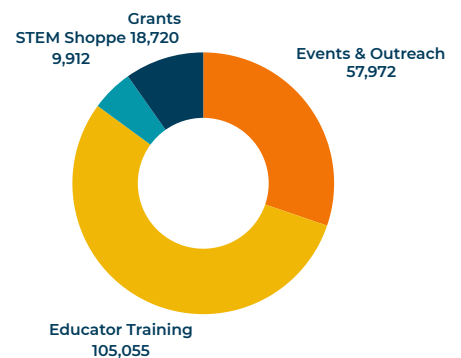

Without your generosity, we could not do the great work that inspires and prepares our youth to be the future of STEM. I look forward to seeing you at this year's Flight Night!

With sincere appreciation,

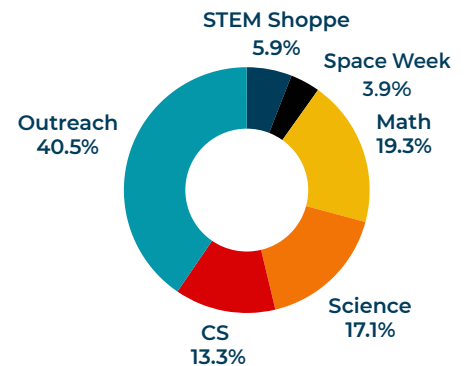

Levi Patrick, M.Ed.
Executive Director

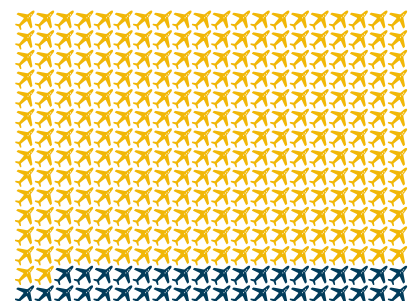

191,659 Youth Experiences
